OUR BIRTHDAY NUMBER.

On Wednesday, Oct. 10th, THE EVENING World will issue a special anniversary number. Effort will be made to produce a worthy capstone to a remarkable journalistic first

It has fallen to the lot of few newspaper ventures to make such a record during a twelvementh as that of THE EVENING WORLD, And very appropriately its anniversary number will aim to be the greatest penny paper ever issued in this or any other town.

Of course, you'll be present with several hundred thousand other people at our birthday party.

GOV. HILL AND LABOR.

Gov. Hyll will address the labor organizations of the City at Cooper Union this evening. The attendance will doubtless be large. The workingmen of New York have intelligence enough to understand their true interests, and honesty enough to support those public officers who are the real friends of the cause of labor.

During his four years in the Executive office. Gov. Hill has shown himself to be the earnest advocate of all measures calculated to benefit the laboring classes. Time and again he has interposed his veto to prevent encroachments on the natural rights of the people. His course in this respect has been firm and consistent. He is pronounced a demagogue by his political opponents simply because his official action has; been guided by broad, liberal views, and by an honest determination not to allow prejudice, clamor or misrepresentation to swerve him (from the strict line of equal justice to all men, rich and poor, powerful or friendless.

It would be strangely inconsistent if the workingmen of the State did not stand stoutly by the Governor whose enemies seek to defeat him because of his friendliness to the laborer. It is not necessary to recall the instances in which that friendliness has been shown. The recommendations and vetoes of four years make up the record. But it is well for workingmen to remember that the crusade of Wall street gamblers against DAVID B. HILL is mainly due to his refusal to allow the People's Half Holiday law to be repealed without a fair trial. Nor should it be forgotten that at the extra legislative session Gov. HILL urged the recon struction of the Conspiracy laws on the Re publican majority, so that they might no longer bear unjustly on labor combinations while offering no interference with the conspiracies of capital.

It would be well if every workingman ir the city could be present at Cooper Union to-night.

GALLANT JOURNALISTS.

The affliction that has fallen on Jacksonwille has at least served to demonstrate the devotion of a set of young men whose services to the public in the discharge of their duties are seldom properly appreciated. The correspondents and reporters of the press are in their way theroes whose courage and fidelity are constantly put to the test. In their ordinary daily occupation they are called upon to face perils from which many bold men would shrink, and seldom, if ever, do they heritate to confront the danger. They are assigned to follow up and detect erime: to visit spots where pestilence has suddenly appeared; to interview ruffians and murderers, such as the Hatfield gang, and to do other work in which they take their lives in their hands. They never fail in their duty and people who read the result of their tasks in the daily journals little think of the risk at which the news has been gathered.

At Jacksonville these faithful young men have displayed singular bravery and devotion. Some of them have given up their lives to their duty. Others, as in the case of the gallant correspondent of THE WORLD, have taken the disease and happily recovered. In every case the courage and selfabnegation of these useful journalists are remarkable, and they should be duly honored by the people.

> THE WOVEL SCULLING RACE. The novel sport of a roadscullers' race at Madison Square Garden proves a great attraction, mainly owing to the reputation of the oarsmen engaged in the contest. With

such men as TEEMER, GAUDAUR, PLAISTED. BUBEAR, O'CONNOB, LEE, WALLACE ROSS and the rest in the lists there can be no lack

It is a singular sight to see these men, each with steam-engine speed, pulling away at a roadsculling machine with as much grace and ease as if they sat in their boats. Considerable skill, as well as muscle and endurance, is required to manage these machines successfully and to make good time. The scores for the first six hours prove how well the champion carsmen are performing their task. The race is worth witnessing, and the large number of spectators gives evidence that it is appreciated by the people. It is of vastly greater interest than a six days'

of curiosity and interest in the event.

A PRIZE CAT.

walking match.

THE EVENING WORLD highly appreciates the compliment paid it at the Anti-Poverty Fair where it was voted the most popular evening newspaper in the city. We also re ceive with full appreciation the present of an office cat, awarded as a prize to the winner in the pleasant contest. The donors may rest assured that Pussy will find a happy home and will become the office pet.

There has been some talk of an office cat owned by one of our contemporaries. But that animal is known to be sly, stealthy and treacherous, with a habit of unsheathing its sharp claws suddenly from their soft, velvety covering and tearing the flesh of its friends. Our office cat will be trained in a better manner. It will be gentle, kind and true to all who deserve its friendship. But woe to any "rats" that may come in its

The County Democrats have nominated Mr. HEWITT for Mayor. They have not completed their ticket, it being understood that Mr. Hewirr insists upon passing on the rest of the nominations as a condition of his acceptance. The Labor parties have nominated Mr. JAMES J. COOGAN as their caudidate. Mr. Coogan is a business man, a large employer of labor and a popular man in all the labor organizations. With HUGH J. GRANT, a model Sheriff; ARRAM S. HEWITT, the present Mayor; JAMES J. Coogan, a leading advocate of the Labor party, and a yet-to-be-named Republican in the field, every one ought to be able to select the sort of Mayor he prefers.

MISS HENRIETTE MARKSTEIN'S free entertainment for workingwomen yesterday afternoon was a great success. The attendance was so large that many late comers were unable to obtain entrance to Cartier's Hall, at 80 Fifth avenue, where the entertainment was held. Miss Markstein should, if possible, secure a larger hall.

There is a rumor that Mr. BLAINE is to take up again the profession of journalism. That is good. Mr. BLAINE is a capable journalist, and hence his life ought not to be wasted in a political office. Better be an editor, Mr. BLAINE, than Premier or President. It is a more honorable position.

SO THE VOTERS DECIDED AT THE ANTI-POVERTY FAIR.

The Evening World" Heads the List for Popularity-Pussy Gets a Warm Welcome, Has Its Picture Printed and Will Wear a Bright New Collar-The Fair Closed Amid Undiminished Success.

It is THE EVENING WORLD'S cat, This was decided on Saturday night when the Anti-Poverty Fair and its various contests closed their three weeks' course at the Madison Square Garden. THE EVENING WORLD kept its lead very constantly in the voting of whom can drive a shell through the water for the most popular evening newspaper, and it ended thirty-four votes better than its nearest rival.

The prize is a pretty little black feline warranted to take kindly to the vicissitudes of journalistic life. It comes to the office as a most welcome addition to the staff, though the paper has never experienced the actual need of an office cat. The animal's own man-

The cat comes from the residence of Mrs. Butler, at 156 West Thirty-fifth street, where the earlier period of its existence has been passed. Its picture as presented herewith was taken under disadvantageous circumstances. Later, when the feline emotions have been calmed down and the excitement of the change from private to public life is over, another portraiture may be produced. A handsome silver collar, duly inscribed, will be placed upon the neck of the prize cat, and it will be dedicated to its new field of

usefulness.
The other voting contests at the fair also

onded amid much interest and lively compe-tation. If the results count in the fall elec-tions Mr. Cowdrey will be the next President by a comfortable plurality, while Miller will be Governor and James J. Coogan will oc-cupy the Mayor's chair. The United Labor organization turned out as the most popular party according to the fair's voting.

In the contests for chief popularity Dr. Mc-

Glynn won among the clergymen; John Mc-Mackin among the United Labor men; Syl-vester Malone as a member of the Anti-Poverty Society, W. Martin as the most pop-ular of Irishmen; Nellie Sheridant most popular ular of trishmen; Nellie Sheridant most popular Concordia Chorus girl; Miss Margaret Byrnes, most popular member of the Workingwoman's Society; Father Malone, most popular of priests; J. J. Breslin, most popular of bachelors; H. O'Neill, most popular young man; Mrs. James Ryan, most popular lady worker at one table.

The Leo Club, of the Twenty-first Ward, most of the page of the page for popularity in base. vas voted the palm for popularity in base-

all matters. Dr. Burtsell was voted the best friend of Dr. McGlynn, and Georgie, son of John Moran, came out first among the fine babies. The fair continued to go with a boom up to the very last moment, and more than half the people who worked or visited at the Gar-den are sorry that it is over. The Evening World makes its best bow in

cknowledgment for the prize cat.

THERE IS STILL FEVER.

But Lowering Temperature Threatens in Its Very Stronghold. INDECIAL TO THE EVENING WORLD.

JACKSONVILLE, Fla., Oct. 8 .- With lower temperature and other favorable atmospheric conditions, the fever abates its fury.

The number of new cases and deaths reported daily grows less and, although many are still succumbing to Yellow Jack's attack, the prospect of an early raising of the siege robs the situation of much of its

terror.
It is in the suburbs that the fever is work ing with fatal effect now, and the greatest suffering is reported.

Just outside the city limits, where many poor families live, numerous cases have been reported where whole families have been ill

with the fever with no food in the house. In some cases they have had no medical attendance for days after being attacked.

The total of deaths was swelled yesterday to 291, and 33 new cases were added to the

3.124 previously reported. At the present writing one additional victim and three new cases have been reported. Among yesterday's dead were Edwin Martin, managing editor of the Times-Union, who stood gallantly at his post until the fever

claimed him.

Charles L. De Forrest, a telegraphic operator from Detroit, who had successfully defied Yellow Jack in Memphis and Mobile, was another of those who died.

Union Clambake Club. The Union Clambake Club, composed of mem-

THAT SOCIAL CONUNDRUM.

EVERYBODY SEEMS TO BE WRITING ABOUT THE NOTABLE QUESTION.

Is Love a Failure?" Held to Be the Real Question—A "Cellbate" Who Thinks that All Marriages Should Be These of Convenience — The Rule of Three for People Contemplating Matrimony.

There is no reason why marriage should be a failure if the contracting parties would thoroughly observe what they promise when joining hands and hearts in wedlock. Everything is a failure that is not properly carried

Those who claim that marriage is a failure are, I think, failures themselves. Where marriage is a failure it is their own fault. One or both are to blame, generally both. Married people who are unhappy should make new rules and observe them. Let them analyze their difficulties and find out where the trouble lies and try and rectify it at once.
If they are poor, that is no reason why they

should not be devoted to each other. Very often poor people become rich. If they are poor let the husband fight shy of the run-shop, and the wife fight shy of sealskin

shop, and the wife light shy of sealskin sacques and French millinery.

If a woman wishes, she can always look well and presentable without spending half her husband's salary for milliners' inery. Let her keep her rooms and herself neat and tidy, and her husband will be all the more anxious to spend his evenings at home.

Married people should avoid living with relatives, avoid as much as possible visiting and gossiping with neighbors; and above all things, do not disrespect each other.

I am married six years am blessed with three nice children and I am poor; but my married life is very happy.

A Pollure Without Love. To the Editor of The Evening World:

I think the question of marriage as a failure might well hinge upon another, " Is Love a Failure?" for love with marriage can never be a failure.

How many girls seek love, or are moved by it instead of a desire to marry? And how often do we hear the question, immediately

often do we hear the question, immediately after marriage, among the bride's friends:
"Did she do well?"
How do well? In marrying a man of worth, industry, intellect—a man who will love, honor and respect her? Ah, no; but did she do well in a pecuniary point of view, did she marry money? And it must be trankly admitted that many a girl has and will still turn from a man of intellectual or trankly admitted that many a girl has and will still turn from a man of intellectual or honorable worth to the man who can give her the finest house and the costliest dresses. The "girl of the period" talks only of "style." A man without style has little to recommend him in her eyes, and she can feel no affection for him.

And, on the other hand, it may be as truly said that an honorable man, poor in the world's goods, will even deny himself marriage, rather than ask a girl to live humbly or to do a share of household work.

Is it not true that a girl will make any sacrifice of love in order to live "in style," any

rifice of love in order to live "in style," any sacrifice of love in order to be the envy of er associates?
And is it not equally true that a man will

Categorically Discussed.

To the Editor of The Ecening World When people marry for love the husband thinks he marries an angel, whose feet are too good to rest on God's earth. He soon learns that she cats and drinks like other human beings, and he is disappointed in consequence. She thinks she is marrying a god, but shortly after marriage discovers that his brilliant conversation is, to her, monottonous repetition. He takes no interest in Bridget's misdeeds shrugs his shoulders at Gretchen's derelictions, and is more interested in The Evening World's market reports than in wifey's eternal back-ache, which she attributes to her marriage, and from which she suffered far more before she became a wife. Marringe is a failure unless it is a mariage de conténance. Then both dream not of affection. They marry because it suits them. In the course of years, having had none of these bickerings, which result upon disappointed drawing from D. A. 49 and forming an open organization.

Irreverent Small Boys with No Respect fo

To the New York Bay Cemetery, in the Greenville District of Jersey City yesterday afternoon, came four solemn Chinamen from New York in their best Sunday silken robes. They arrived in a coach, while the walks were crowded with promenaders, and were driven to a grave in the eastern section, oc-cupied by the bones of one of their country-

men.
Three of them alighted and the fourth handed out baskets of provisions and bundle

handed out baskets of provisions and bundles of joss sticks.

Then, while the gaping crowd grew larger every minute, they ranged tempting dishes of chicken, ham, vegetables, cakes and fruit all along the grave, chanting weirdly all the while, and finished the ceremony by burning hundreds of joss sticks, designed to frighten away devils while the heathen spook feasted. feasted.

The arrest of little Costell frightened th rest of the boys away, but a good part of the heathen lay-out disappeared with them.

Stranger-You published an item yesterday saying that James White had been arrested and fined \$15 for stealing a pair of shoes.

Editor-Yes, sir; I believe we did, but if there was anything wrong about it we would be giad to make a correction.

Stranger—Weil, I wish you'd state to-day that it was John G. White, of 17 Griffen street. I like to have these notices in public print about me correct. Good morning.

A Useless Question

From the Chicago Tribune. | .. What shall I call that great political meeting n Bugleville?" inquired the telegraph cuttor of the Daily Door Knob. "I am not sure whether should be regarded as a gathering, a raily or a demonstration."
"Was it in favor of our candidates or the other fellows."
"The other fellows."
"The other fellows."
"The call it a flaco, of course. I am surprised that you should ask such a question."

Pure Blood

Is absolutely necessary in order to have perfect health. Hood's Sarsaparilla is the great blood purifier, quickly conquering scrotule, salt rheum, and all other insidio enemies which attack the blood and undermine the health. It also builds up the whole system, cures dyspep-sia and sick headsohe, and overcomes that tired feeling. "I have been troubled by a scrofulous affection all my life. It is one of the marked recollections of my boyhood days, and for several years has rendered me unable to labor much. I think Hood's Sarsaparula, which I have been using at intervals for ten years, is the beat thing I have ever taken. I am now 60, and my general health seems better than ever." H. D. Abnort, Warren, N. H.

"I have taken two bottles of Hood's Sarasparille for salt rosum and dyspopsia, with which I was troubled very much. After taking this medicine I am feeling as well as ever in my life." G. W. Hoam, Pottsville, Pa. N. B .- If you want a good medicine, gr

Confidence in the Success of the Dash Races of the Driving Club - Dempsey Gives Odds in Betting If He Be the Unknown

to Meet Kilrain-Moffat, the Canadian,

Is to Retire from Athletics. The Driving Club has decided to postpone the "dash" race trotting meeting from Sat. urday, the 13th, to Monday, the 15th, The trotters will not then conflict with the runners at Jerome, and a great day should be the result. Alex. Newburger, one of the earliest advocates of the doing away with those long heat races, assures the writer how certain he is of the coming trial at the dash" system.

Jack Dempsey and Prof. Mike Donovan are to box after all. Their meeting is only off till after the election.

A bet of \$100 to \$90 on Dempsey was made uptown Saturday night, conditional on the Nonpared's being the unknown to meet Kil-
